HIKING IN AMBATOMANGA

Central Hôtel *** Antananarivo

Day trips from the hotel

Ambatomanga, built on the top of a hill, is located 50 km east of the capital, next to a large granite rock, covered with aloe vegetation. It overlooks the Amparihibe lake, considered sacred, and there is also a cave on the hillside.

The village has preserved its architectural traditions from the last century, with its high, two-storey houses, surrounded by a small balustrade, and with roofs of tiles blackened by time...

Splendid landscapes, low-angle shots of the terraced crops, impeccably worked, where the shades of brown to fluorescent green form astonishing compositions, on a red earth background. Beautiful encounters with the workers of the land: ploughing the soil, planting rice, harvesting.

Program

>> departure from the hotel at 7am for arrival on site at 8:30am

>> hike with a guide (3 to 5 hours, depending on the level and willingness of participants)

>> picnic on site

>> possibility to buy dairy products (local specialties)

>> return to the hotel at 5 pm
